1. INTRODUCTION

Beotel net is one of the biggest internet service providers in Serbia. It started to work on 23th february in 1996.

Beotel net is the internet house who first brought internet link in our country. They did that because they take care about their customers and want to adapt to customer wishes.

They maintain the possibility to be connected to the internet 24 h on day through wireless network, ADSL and dial up internet.

Tehnicall support answers to all customer requests seven days a week 24 h a day. In purpose to consolidate their position on that market they have quilt their buisness relationships they have joined with ``NS point.net`` , BISInter.net.

In Zrenjanin Beotel.net started to work in 1998 like the first internet provider in Zrenjanin.

Since then it covers the territory of Zrenjanin and many villages like Ecka, Zitiste, Begejci, Lazarevo, Jasa Tomic, etc...

2. SERVICE

They can also ask the servicers some questions if they don`t know how to handle some problem.

If something doesnt work properly they can rue on the forum. This way of communication between salesman and customer is very good because the servicers can know what to fix if some problem appears.

3. REASERCHE AND DEVELOPMENT

In ``Beotel.net`` in the beginning it was re-selling of internet hours (dial-up internet). After that the market quilted.

Beotel.net plans for their customers the fastest internet in the country. In that purpose they started to quilt. After fast an succesiful selling internet hour ``Beotel.net`` quilt on wireless internet, which is faster then dial-up internet.

Difference between wirelles and dial-up internet is that wireless is more accomodating for customers and it has many speeds
